

# Kaleidoscope

Albert Hammond

Round and round  
My world is like a kaleidoscope  
Colours that change from despair to hope  
Jealousy green, passionate red  
These are the moods of love  
Round and round  
My world resembles a children's toy  
Colours that take me from tears to joy  
Sorrowful blue, innocent white  
These are the moods of love  
Love keeps arranging my life like a game  
One thing is constantly true  
The more things keep changing, the more they're the same  
I'm always in love with you  
Round and round  
My world is like a kaleidoscope  
Colours that change from despair to hope  
Jealousy green, passionate red  
These are the moods of love  
Love keeps arranging my life like a game  
One thing is constantly true  
The more things keep changing, the more they're the same  
I'm always in love with you  
Round and round  
My world is like a kaleidoscope  
Colours that change from despair to hope  
Jealousy green, passionate red  
These are the moods of love
