

XNXX

Joji

[Chorus]

I don't really wanna run around, yeah
Time is going slow and I don't mind, yeah
Tell me if you know I'm really frown, yeah
Fuck around and didn't get it right
Yeah yeah yeah yeah[Verse 1]

I don't really wanna run around round round round round round round round
(???) will make the world go round round round round round round round
Round round round round
Round round round round
Round round round round

Round round round round[Verse 2]

Keep you pass another my way (my way)
Another night, a lot more days (more days)
Hard to think about you anymore (you anymore)
But I keep you in my mind always (always)
Called me on the phone last night (last night)
Couldn't hear your voice top flight (top flight)
I won't be around you anymore (around you anymore)
In a dream where you feel alone

[Chorus]

I don't really wanna run around, yeah
Time is going slow and I don't mind, yeah
Tell me if you know I'm really frown, yeah
Fuck around and didn't get it right
Yeah yeah yeah yeah
