

Beam Me Up

Cazzette

Tonight, we'll run away
Speedin' faster than a midnight train
Somewhere to such a place
Where the stars come out to light your face We'll leave behind the world in darkness
Go where no one's brokenhearted
Take off without a trace
Neon angles up-up and away Diamond clothes
I think we're getting closer
Don't stop me now Off the ground
Higher than a supernova
Don't look down (don't look down)
(down-down-down-down-down-down-down) (Don't look down)
(down-down-down-down-down-down-down) (Don't look down)
Beam me up (up-up-up-up-up)
Beam me up (up-up-up-up-up-up)
Beam me up (up-up-up-up-upup-upup)
Beam me up (up-up-up-up) Diamond clothes
I think we're getting closer
Don't stop me now Off the ground
Higher than a supernova
Don't look down (don't look down) After we kiss the sun
We can burn our names into the sky
Feel my electric touch
Touch my supersonic love go by Diamond clothes
I think we're getting closer
Don't stop me now
Off the ground
Higher than a supernova
Don't look down (don't look down)
(down-down-down-down-down-down-down) (Don't look down)
(down-down-down-down-down-down-down) (Don't look down) Beam me up (up-up-up-up-up)
Beam me up (up-up-up-up-up-up)
Beam me up (up-up-up-up-upup-upup)
Beam me up (up-up-up-up)
Diamond clothes
I think we're getting closer
Don't stop me now
Off the ground
Higher than a supernova
Don't look down (don't look down)
Don't look down!
