

# Maintain the Pain

Miranda Lambert

I put a bullet in my radio  
Something just hit me funny, I don't know  
Just pull the trigger going down the road You slam the door and knock me off the wire  
Been walking lines and you've been burning tires  
Slowing and easy ain't that what you like? It's insane  
It's in vain  
You stay to maintain the pain I hear your name and then it burns a hole  
I swear I hate you but I can't let go  
The kind of damage that you can't console It's all in vain  
It's all insane  
I swear you'll stay  
I swear you'll stay to maintain the pain  
It's all in vain  
(I hear your name and then it burns a hole)  
It's all insane  
(I swear I hate you but I can't let go)  
I swear you'll stay  
(The kind of damage that you can't console)  
I swear you'll stay to maintain the pain  
Maintain the pain
