Feel About You (feat. Diplo, Mark Ronson & Mapei)

Silk City

Thought I needed some medicine
But this is how I always been
'Cause we always go too far
Never knowing if we will end
Which way do you recommend?
Think you know me by heart, my friend
Don't we always go too far?
Never knowing where we will endThat's what I feel about you
That's what I feel about you
That's what I feel about you
That's what I feel about you, babe
That's what I feel about you, babeWhich way do you recommend?
Think you know me by heart, my friend
Don't we always go too far?
Never knowing where we will endThat's what I feel about you
That's what I feel about you
That's what I feel about you
That's what I feel about you, babeThat's what I feel about you, babeThat's what I feel about you
That's what I feel about you
That's what I feel about you
That's what I feel about you, babe
That's what I feel about you
That's what I feel about you, babe
That's what I feel about you
That's what I feel about you, babe
