

Smash Lies

Matisyahu

(vocoder)
Dream awake, dream away
get up and get up and go ahh) Dream awake, make no mistake
Strive to be alive most everyday
You can listen stereo or monotone
Mega phone, mellow drone DJ with delay
Relay super surfer high stereo sound Radio station super space nation fight the foe
This one's about to blow up
I'm two flues over the CooCoo's nest and won't rest
Bless up with no vest with a shield to protect Smash lies,
(wake up), stand up and jump off to this
yeah wake up, stand up and jump off to this
wake up, stand up and jump off to this
Some piece of mind from the daily grind Smash lies,
(wake up), stand up and jump off to this
yeah wake up, stand up and jump off to this
wake up, stand up and jump off to this Dream awake, dream awake
say, get up and get up and go ah
say, get up and get up and go ah
Oh Dream-a-dream-awake
Dream awake, dream awake
say, get up and get up and go ah
get up and get up and
get up and get up and
Dream awake, dream awake
Find lines to move guys rely on a vision
Filled with rhymes, the room is filled with villains, and ghost
We toast and coast to the next host
Many boast of battles won and the day is fading fast The work is passed through the self
destruction
Why you wanna burn, why you wanna drown?
Why you wanna die by the highway?
The front lines intertwine
Smash lies,
(wake up), stand up and jump off to this
yeah wake up, stand up and jump off to this wake up, stand up and jump off to this
Some piece of mind from the daily grind stand up
yeah wake up, stand up We'll bounce over beats and rock shows
So fast so slow never know where the day may go
Bounce and we bubble over hills and valleys We go through the fields of green in between
destinies
Or just get high, nah there's no need

No need to feed on the scraps of the enemy
Where's the bad guy on the inside one day I might try
Smash lies,
(wake up), stand up and jump off to this (dream awake)
yeah wake up, stand up and jump off to this
yeah wake up, stand up and jump off to this
wake up, up, jump off to this(mixing samples)
