

# I Learn the Hard Way

## Trampled By Turtles

I learn the hard way  
Or no way at all  
You're out in the hallway  
Braced for the fall  
Let's just be together  
Just me and you  
We'll follow the weather  
We'll know what to do  
I'm not in a hurry  
I always think twice  
I try not to worry  
And I try not to fight  
But you got me shaking  
I can't sleep at all  
I'm sure I'll get better  
Where we're offThe water is rising  
There's nothing out there for us  
Hmmm  
It's loud in the city  
Let's get out of town  
The resin is gritty  
And I can't hear a sound  
We'll take a long drive  
On a warm summer night  
I know you can't save me  
But I know that's all right
