

Proud (feat. Daecolm)

Tchami

Don't need caution
You gonna find out
In this lifetime Only upsides now
Looking for the right mood
That's the mood now
So when I can look back
I can say there's no regrets and I'm proud Proud Proud Proud
Don't need caution
You're gonna find out
In this lifetime
Only upsides now
Looking for the right mood
That's the move mood now
So when I can look back
I can say there's no regrets and I'm proud Proud Proud Proud Don't need caution
You're gonna find out
In this lifetime
Only upsides now
Looking for the right mood
That's the move mood now
So when I can look back
I can say there's no regrets and I'm proud
Proud Proud Proud Don't need caution
You're gonna find out
In this lifetime
Only upsides now
Looking for the right mood
That's the move mood now
So when I can look back
I can say there's no regrets and I'm proud Proud Proud Proud
