

All Black Everything (feat. Gallows)

The Bloody Beetroots

I've got a friend, her name's Codeine
When I'm awake she helps me dream
All the colours of the night
All the colours of the night I've got a friend, her name's Codeine
When I'm awake she helps me dream
All the colours of the night
All the colours of the night All black, all black
All black, all black
All black, all black
All black, all black
All black everything
Black shirt, black boots and jeans
All murdered out
(All murdered out)
(All murdered out)
(All murdered out)
(All murdered out) Like a stepping razor, I'm gone
Like a stepping razor, I'm gone
Like a stepping razor, I'm gone
Like a stepping razor, I'm gone
Like a stepping razor, I'm gone
Like a stepping razor, I'm gone
Like a stepping razor, I'm gone
Like a stepping razor, I'm gone All murdered out
(All murdered out)
(All murdered out)
(All murdered out)
(All murdered out)
All murdered out
All murdered out
All murdered out
All murdered out
All murdered out
