

# Is Anybody Loving You These Days

**Dierks Bentley**

Midnight stoplight, happens every time  
Pretty girl in a car  
No resemblance whatsoever  
I wonder how you are  
Constant question poundin' in my brain  
Is anybody loving you these days  
Lonesome pillow, sun comes yellow  
I reach across the bed  
Should be hurried, workin', worries  
I lie there instead  
With the thought that's drivin' me insane  
Is anybody loving you these days

Chorus:

Damn this small town, every place that I go  
I drive by your house, I see his car and I know  
He's there with you, but when he kisses you  
Think about the memories we made, and tell me  
Is anybody loving you these days  
Second chances, backward glances  
Most people just say no  
World keeps turnin', heart keeps yearnin'  
I keep holdin' the hope  
One day you might answer with my name  
Is anybody loving you these days(Repeat Chorus)
