

# The Lake

## Galantis & Wrabel

My, my, my remembered that place  
Yeah, the whole thing started there  
My, my, my, back here  
Those days there was magic everywhere Now all our friends are getting married  
We're still acting like kids  
I've been thinking about it  
I just don't know what it is  
When the world's moving too fast  
Wishing it would move slow  
If you need meditation  
I know a place to go  
If you ever, ever, ever need a break  
Got a house on the lake  
We could get a, get a, get away  
I got a house in a little town on the lake  
(Got a little ho-)  
If you ever, ever, ever need a break  
I got a house in a little town on the lake My, my, my remembered  
Sundays at the bottom of the hill  
We were making plans, just to  
Break 'em, we had so much time to kill Livin' life in the city  
Actin' old while we young  
So goddamn, you're so pretty  
I swear to God you're the one  
But I don't wanna move too fast  
I just wanna move slow  
If you need meditation  
I know a place to go  
If you ever, ever, ever need a break  
Got a house on the lake  
We could get a, get a, get away  
I got a house in a little town on the lake  
(Got a little ho-)  
If you ever, ever, ever need a break  
I got a house in a little town on the lake
