Alive (Basto Remix)

Adrian Lux

Ice, shock, tremble in my chains
Waiting for your hands to light me up again!
Tick-tock, longing for the pain
Plug me in, turn me on, connect me to the mains!
Shock me! Shock, shock, I want it
Cut me! Up, up into nice slices
Give me, the perfect body
Wreck me, up, up!
I'll be your dream tonight
I feel you're coming down tonight
There's power in your hands tonight!
There's power in your hands to give me life
To give me life tonight
My heart's in my mouth and it's time
Release me and open my eyes
I'm ready tonight and I see the life
Alive, alive, alive, alive,
And it feels so good!Ice, hot, running through my veins
You are the doctor playing with my brain
And the knife cuts sweetly through the pain
Plug me in, turn me on, connect me to the mains!
Cut me, operator
Cut me just right!
Cut me back together
Do what you like!
Oh, please operator, deeper inside
Operator, I'll be your dream tonight!
I feel you're coming down tonight
There's power in your hands tonight!
There's power in your hands to give me life
To give me life tonight
My heart's in my mouth and it's time
Release me and open my eyes
I'm ready tonight and I see the life
Alive, alive, alive, alive,
And it feels so good!
