Day Drinking

Little Big Town

Everybody's always waitin' on Friday
Watching that clock and sip on joe
Whatchya say we find a little warm sunshine
And open up an umbrella on the patioI don't need a reason to go to happy hour
And hang around for a fireworks show
Get a head start a little sip of something
1, 2, 3 here we goDon't want to wait til the sun's sinking
We could be feeling all right
I know you know what I'm thinking
why don't we do a little day drinking
Why don't we do a little day drinking
Blame it on the work day
Blame it on the heatwave
Blame it on the tick-tock moving too slow
Blame it on any old thing you want to
Baby get set baby here we goDon't want to wait til the sun's sinking
We could be feeling all right
I know you know what I'm thinking
why don't we do a little day drinking
Don't want to wait til the sun's sinking
We could be feeling all right
I know you know what I'm thinking
why don't we do a little day drinking
