

We Goin' Out

Chase Rice

Yo Chase, what's up man? What you doing?
C'mon man, what the hell you think I'm doing?
Heh, I'm going out We got the crew and the crew cap rocking that rebel flag
All hats back like a red neck rat pack
Boys looking cool blowing smoke from the mary jane
Girls hair down, frayed out, brought that A game
Kick back and watch how we do
Like Project X, we're next on the YouTube, yeah We going out, we going out
We got our eyes blurred right and the weird up loud
We going out, yeah we ignite the night in the sunburn town
Locked and loaded, rocked and rolling
Driving our shit just like we stole it
All night, good time, damn right
We going out, out, out, out
We going out, out, out, out
It's going down like a whiskey waterfall
So raise your cup up up for a rockstar roll call
The yeti's low quick damn right we're killing it
Cold throwing in looks like we'll be chilling it We going out, we going out
We got our eyes blurred right and the weird up loud
We going out, yeah we ignite the night in the sunburn town
Locked and loaded, rocked and rolling
Driving our shit just like we stole it
All night, good time, damn right
We going out, out, out, out
We going out, out, out, out Now they say lightning don't strike twice
But we here tonight, ain't we?
We going out, we going out
We got our eyes blurred right and the weird up loud
We going out, yeah we ignite the night in the sunburn town
Locked and loaded, rocked and rolling
Driving our shit just like we stole it
All night, good time, damn right
We going out, out, out, out
We going out, out, out, out
We going out, out, out, out, we going out
We going out, out, out, out, we going out
We going out, out, out, out, we going out What do you say dude? You down?
Hell yeah, count me in for that man
