F***in Wit Me

Tank

Cause I eat up for a while, let me through
The shake, the screaming aloud, I'ma fool
In my face you shake, leaking everywhere
Ride it out I don't care, what you doEvery time I lick it, you be losing it
These young boys didn't know what to do with it
You got it all in my face, I love the way that it taste
When you put it all on my plate
Won't go to wasteThat's what you get everyday
When you fucking with me
Fucking with me
That's what you get everyday, oh
When you fucking with me
That's what you get everyday
When you fucking with me
I've waited out for a while, let me through
Know I get it animals sound, like a zoo
You got the right to be selfish
For all of them nights you were helpless
The mornings you left making breakfast
The mornings you left making breakfast, oh yeahEvery time I lick it, you be losing it
These young boys didn't know what to do with it
You got it all in my face, I love the way that it taste
When you put it all on my plate
Won't go to wasteThat's what you get everyday
When you fucking with me
Fucking with me
That's what you get everyday, oh
When you fucking with me
That's what you get everyday
When you fucking with me
Everyday when you wake up
When you get home from your job
Yeah this can really be us
Trust me babe I don't get tired
I got more than one way to please you
Lay it down, god know how to teach you
Satisfied as I wanna go lick you
It's more than a world girl I need toEvery time I lick it, you be losing it
These young boys didn't know what to do with it
You got it all in my face, I love the way that it taste
When you put it all on my plate
Won't go to wasteThat's what you get everyday

When you fucking with me
Fucking with me
That's what you get everyday, oh
When you fucking with me
That's what you get everyday
When you fucking with me
Let's go, yeah
You know what I wanna do.
