

Secrets and Lies

Ruelle

You got a cold, cold heart
Do you feel at all?
You build a house of cards
But it's going to fall
You think I don't see who you really are
I got news coming
I've seen it all from the start I know all your secrets
I know all your lies
I know where you keep 'em
Buried deep inside
No, you can't hide your secrets and lies
Secrets and lies
Wish on your lucky stars
'Cause it's all you got
Won't get you very far
When the music starts You think I don't see who you really are
I got news coming
I've seen it all from the start I know all your secrets
I know all your lies
I know where you keep 'em
Buried deep inside
No, you can't hide your secrets and lies
Your secrets and lies
Your secrets and lies
Your secrets and lies You got a cold, cold heart
You build a house of cards
I know all your secrets
I know all your lies
I know where you keep 'em
Buried deep inside
No, you can't hide your secrets and lies
