The Sound of Silence

Pentatonix

Hello darkness, my old friend I've come to talk with you again Because a vision softly creeping Left its seeds while i was sleeping And the vision that was planted in my brain Still remains Within the sound Of silenceIn restless dreams I walked alone Narrow streets of cobblestone 'Neath the halo of the streetlamp I turned my collar to the cold and damp When my eyes were stabbed By the flash of a neon light That split the night And touched the sound Of silence And in the naked light I saw Ten thousand people, maybe more People talking without speaking People hearing without listening People writing songs That voices never share And no one dared Disturb the sound Of silence (Of silence) Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
