

The Night Last Night

Mark Ronson & The Business Intl.

Last night when I was sleeping in the night
When I was sleeping, well I died
When I was sleeping in the night
Last night And then I went to heaven when I died
When I was sleeping, went to heaven
Didn't like it in the night
Last night And so I went to hell, I went to hell
I didn't like it when I died
When I was sleeping in the night
Last night And then I was reborn
It was the night I died for sure
And then all I saw was the morning of the night
Last night
And there's no fight
The day has come
My chance was gone I don't know these places that you go
When you are sleeping
Oh, I know it might be foolish
But I hope that you're dreaming of me Then I went all the way to heaven
And I saw the pretty angels
Well, I simply turned and left them
In the night last night When right down into hell
And saw them wicked girls as well
But no, I didn't feel their spell
In the night last night
Well there's nothing to be taken
And there's nothing to be given
I don't care about the living
I can't lie, I can't lie And then I was reborn
It was the night I died for sure
And then all I saw was the morning of the night
Last night And there's no fight
The day has come
My chance was gone I don't know these places that you go
When you are sleeping
Oh, I know it might be foolish
But I hope that you're dreaming of me I don't know these places that you go
When you are sleeping
Oh, I know it might be foolish
But I hope that you're dreaming of me Last night when I was sleeping in the night
When I was sleeping, well I died
When I was sleeping in the night

Last night And then I went to heaven when I died
When I was sleeping, went to heaven
Didn't like it in the night
Last night And so I went to hell, I went to hell
I didn't like it when I died
When I was sleeping in the night
Last night And then I was reborn
It was the night I died for sure
And then all I saw was the morning of the night
Last night
