

In Your Wake (feat. Jeza)

Said The Sky & Illenium

Losing ourselves
And were barely standing
Warm body surround
If there's no soft landing
Let me be forgotten
Just leave me in your wake
I never know the bottom of my heart
I never read a caution from the start
Now we may forgotten the truth to start again
Let me be forgotten
Leave me in your wake
In your wake
Confusions surround
There's no understanding
When we're feeling down
We're living stranded
I never know the bottom of my heart
I never read a caution from the start
Now we may forgotten the truth to start again
I never know the bottom of my heart
I never read a caution from the start
Now we may forgotten the truth to start again
Let me be forgotten
Leave me in your wake
In your wake
Let me be forgotten
Just leave me in your wake
I never know the bottom of my heart
I never read a caution from the start
Now we may forgotten the truth to start again
