## After Party (feat. Santigold)

## **The Lonely Island**

After the club is the after party After the party is the hotel lobby After that, you know it's Dom and Cris And after that, I say, "Excuse me, miss" And after that, we goin' back to the room And after that, she's gonna leave real soon And after that, I crack one more beer And after that, I just stare in the mirror And after that, I start freakin' out What the hell am I doing with my life? Call up my mom and get my cry on I order room service, get my apple pie on And after that, I just walk the streets A homeless dude throws up on my feet And I see just how pointless life is Full on existential crisis Tear off my clothes and scream at the sky Fall to my knees and ask God, "Why?" This nightlife is killing me I think I'm losing my mind I yearn to fly, yet I sink Cristal and tears is my drinkAfter that, I drive into the hills And trade my car for a bottle of pills And after that, I'm on a vision quest Put my mind, body, and soul to the test And after that, I meet my totem spirit It's a rattlesnake, so I have to kill it Then I drink all its blood and steal its powers And slither around in the dirt for hours And after that I start jerking off Up on a mountain, jerking off Down by the river, jerking off And that's when I have my epiphany You can't spend your whole life jerking off And after that, I'm going back to the city This nightlife is killing me No more jerking off Fate only knows what's in store Cristal and tears for me, no moreAnd after that, I clean up my life Join AA to make it right And after that, I get my thirty day chip And after that, I go celibate

And after that, I'm a whole new man
Brew kombucha in my hybrid van
I give my life to meditation

Then sleep with a whore at a Greyhound station

And after that, I have a full relapse

Then lose my hand in a game of craps

And after that, everyone calls me Claw

And after that, I work for Tim McGraw (Hey!)

And after that, I pass out in the sewer

Meet a giant fish, fuck its brains out

And after that I'm filled with shame

No one but myself to blame

Nothing in my heart but pain

Next week we're gonna do it again!This nightlife's got its hooks in me

I'm back to jerking off

I tried but could not break free

Cristal and tears return to meStarted in the club

Then he moved to the Hills

Really freaked out and drank snake blood

Got himself clean

Now back in the club

And that's what happened in this songCristal and tears
This playboy life's too much for meAfter the club is the after party
After the party is the hotel lobby

Stuck in a cycle I just can't win And after that, it all happens again
