

Keep Doing What You're Doing

Bryson Tiller

Son, I hope you enjoy your birthday
And you have a blessed one
And I love you Bottom of my heart, mam I wished I believed
I wished I believed in you
Taught me, lead me
I wish I could see in me
But choosing won't talk less
You just tell me two things, yeah
I love you
And no matter what, keep doing what you doing
Keep doing what you doing
Whatever you doing, keep doing it
You gotta keep it moving
Gotta keep it moving, yeah
Do what you do, yeah
Keep doing what you doing When I found it hard at times to be myself
Not me, just me and myself
Myself, myself
I keep doing what I'm (wait)
Doing what I'm doing
I think that's what got me here
I can't feel my best and that exactly why I'm here
Hate it how it felt to be in debt to being felt
'Til I did something
Some reflecting, thinking 'bout the testaments and the wisdom
Make sure you got a will, there's a way when it is
Keep doing what you doing, go to us, already been done
I know you got it in you
Yeah, yeah (baby, I)
Yes, I know you got it in you (yeah, yeah)
Yes, I know you got it in you, oh
Oh, oh, oh (baby, I) Oh-woah-woah
