

# Meet Me In the Middle

Gladys Knight

Both of us were silent  
With so much left to say  
I almost said I love you  
And please don't go away But every time there's trouble  
I go that extra mile  
Now if we're gonna make it baby  
You've gotta change your style Why don't you tell me  
If you love me  
Show me how you feel  
Together we can work it out  
If this love is real  
You've got to meet me in the middle  
Meet me halfway  
The world today is compromise  
C'mon, c'mon, what you say? Just give a minute  
If you got a change of heart  
Don't use me, let me go  
Don't take my love for granted  
If you want me let it show 'Cos I would give up everything  
To prove my love for you  
But should I have to pay that price  
If you love me too Why don't you meet me in the middle  
Meet me halfway  
Show me some compassion  
C'mon, c'mon, what do you say?  
Oh, meet me in the middle  
Meet me halfway  
The word today is compromise  
'Cmon, 'cmon, what do you say? Meet me in the middle baby  
See you when I get there  
Meet me in the middle baby  
Yeah, yeah Meet me in the middle baby  
See you when I get there  
Meet me in the middle baby  
Yeah, yeah Take it and give it  
That'll be willing  
Open up your heart and your mind Whenever there a problem  
I know that we can solve them  
If we go put our love on the line Hey, why don't you meet me in the middle  
Ooh, halfway  
In the middle  
Baby, what do you say? Why don't you meet me in the middle

Meet me halfway  
The word today is compromise  
'Cmon, 'cmon, c'mon what you say? Meet me in the middle  
Meet me halfway Show me, show me some confession  
In the middle baby  
Oh, in the middle
