

Heaven & Hell

Raekwon

Raekwon, GhostfaceYo what what, yo
Exotic type shit
Ninety-four, we must go to war fast
With the pen and the pad
God damn, shine like gold rims on Pathfinders
Wu-Tang reclines, lamps, for the nine-squares kid
Money clothes designer hoes and shows y'allYo, yo, wakin up about ten kid
Jumpin in the shower, peace about to make
moves and slide like greese
What? I'm all about Tecs and checks and nuff respect you front
I'm slammin you like the Lex
So now I'm out in the ninety-five
Rockin that real nigga don't die
Guess down
Drawers Kani!
But yo I'm makin a pit stop
Go and buy a box of glocks, til he rolled up and yo
Whattup Hobbes?
Yo, remember that kid that we vicked
He made a half of mil for real
He brought about fo' bricks
Yo, so now we connect doors, meet me at the airport
TELL GOLDEN ARMS MAINTAIN THE FORT
Get in touch with that West coast Cali crab you stabbed
And meet me at the bitch lab
So word up kid, we slid like a fat four to twelve bid and shit
Couldn't even rest, I need the vic
And when I slept, I dream G's, Son I need some
Keys roll self, call up Son
I heard Pook and Tyriq caught a beef over some real shit
A fake nigga faked and they killed his click
Gimme a minute and I'm with it
Yo niggaz done did it
Rock your vest
Keep your whip tinted
So now we see him up in BoJangles
Stranglin a forty ounce, with ten G's worth of gold bangles
Diamonds, what, all up in his face
With his man's mace, medallions the size of dinner plates
Yo, he knew we knew him so we blew him
Took thirty G's worth of jewels of that nigga
DO HIM!

So now I'm lampin in my man's Land
Streets is hot like sand
Jesus rollin in my right hand
Yup, you know the steezo black
Got to go down like that
Shallah
Cigars

AND BALL HATS
