

# Dream Aid (Filtered Thru Assemblage 23 Remix)

## Haujobb

high speed progress  
step by step into a trap  
moment insignificant  
no way to penetrate the spotlight surface  
so stay outside close to your private light  
short-term memory  
permanently generating  
plastic destiny  
trying so hard to turn aside  
all the stress from oneself  
intelligence frustrates  
the polished face  
a fading race  
fed with facts  
to regenerate the lost inborn abilities  
we keep on training  
that difficult breathing  
a forced, perfect state  
protects us from rain  
easiest moving towards  
some difficulties fearless  
changing skins renew  
to the beginning again and again  
a generation exists just one day  
short story  
mirrors break  
asleep in a crack  
man-made aid  
to alleviate  
a man-made pain
