

Deja Vu

J. Cole

I live off the echoes of your "I love you's"
But I still feel the blows from all your "don't want to's"
When you're drunk, you say I'm the one
Then you wake up
You suck my hope up in a vacuum 'Cause every day's the same
Definition of insane
I think we're running on a loop
Déjà vu
So tell me something new
Figure out the Rubik's Cube
I think we're running on a loop
Déjà vu
Your words are like Chinese water torture
And there's no finish line, always one more corner
Yeah, they slither like a centipede
Why do you keep me at the end of a rope that keeps getting shorter? 'Cause every day's the same
Definition of insane
I think we're running on a loop
Déjà vu
So tell me something new
Figure out the Rubik's Cube
I think we're running on a loop
Déjà vu [Instrumental Bridge]
'Cause every day's the same
Definition of insane
I think we're running on a loop
Déjà vu
So tell me something new (something new)
Figure out the Rubik's Cube
I think we're running on a loop
Déjà vu (déjà, déjà, déjà vu)
'Cause every day's the same (every day's the same)
Definition of insane (definition of insane)
I think we're running on a loop
Déjà vu (déjà, déjà, déjà vu) Déjà vu
