

Never Be Forgotten (feat. Matthew Steeper)

Code Black

Another ghost trying again to hold me down
But when you're close, you show me what's real now
'Cause I know that we'll fight forever
The unknown will take us anywhere Our memories won't disappear when broken on the ground
Our love is not only a feeling to be lost and found Hope, even when we are falling
I hope you know we'll never be forgotten We'll never be forgotten
We'll never be forgotten
You know, be forgotten
We'll never be forgotten
We'll never be forgotten
We'll never be forgotten Another ghost trying again to hold me down
But when you're close, you show me what's real now
'Cause I know that we'll fight forever
The unknown will take us anywhere Our memories won't disappear when broken on the ground
Our love is not only a feeling to be lost and found
Hope, even when we are falling
I hope you know we'll never be forgotten
We'll never be forgotten
We'll never be forgotten We'll never be forgotten
