

# Put Me to Work

## Papa

I wanna see the lights  
put me to work tonight  
the one who money pain I'll work until he rise  
this one that would wish it thought would be  
Blurred off and swear them blue knew what you need.  
I'll be your junkyard dog chasing silhouettes  
your shadow boxing champ only without regret.but last we would kiss.

I wanna see the lights  
put me to work tonight  
I wanna see the lights  
put me to work tonight  
I wanna see the lights  
put me to work tonight  
I wanna see the lights
