

Do What It Do

Jamie Foxx

You know what, I'mma make it do what it do baby
I'mma make it do what it do baby Now baby I just wanna take your freakin' clothes off
Kiss your body while I take your freakin' clothes off
Leave them heels on while I take your clothes off
Leave them lights on, let me see you go off Ooh, baby that's my body callin' your name
Ooh, and baby that's your body doin' the same
So act right, don't show me, back it up, now put it on me
Act right, don't show me, back it up, now put it on me Now what you wanna do, you wanna get
high, you wanna get fired up
What you wanna do, you wanna get sexed, you wanna get tied up
Get your rodeo wired up, baby girl lift them thighs up
I think you betta wise up 'cause I'm about to rise up
Now what you wanna do, you wanna get high, you wanna get fired up
What you wanna do, you wanna get sexed, you wanna get tied up
Get your rodeo wired up, baby girl lift them thighs up
I think you betta wise up 'cause I'm about to rise up Now baby holla at me tell me what you're
missin'
I can put in work from every position
From the kitchen table
To the bedroom floor Ooh, baby that's my body callin' your name
Ooh, and baby that's your body doin' the same
So act right, don't show me, back it up, now put it on me
Act right, don't show me, back it up, now put it on me Now what you wanna do, you wanna get
high, you wanna get fired up
What you wanna do, you wanna get sexed, you wanna get tied up
Get your rodeo wired up, baby girl lift them thighs up
I think you betta wise up 'cause I'm about to rise up
Now what you wanna do, you wanna get high, you wanna get fired up
What you wanna do, you wanna get sexed, you wanna get tied up
Get your rodeo wired up, baby girl lift them thighs up
I think you betta wise up 'cause I'm about to rise up Your body, your body's shown no singing
baby
Show me how you use it girl, we gonna pop some champagne
Listen to some music, so baby make the music loud
And once we get our clothes off, wrap your legs around my shoulders
And it's gonna be just like I told you baby I'm gonna work you over What you wanna do, you
wanna get high, you wanna get fired up
What you wanna do, you wanna get sexed, you wanna get tied up
Get your rodeo wired up, baby girl lift them thighs up
I think you betta wise up 'cause I'm about to rise up What you wanna do, you wanna get high,
you wanna get fired up
What you wanna do, you wanna get sexed, you wanna get tied up

Get your rodeo wired up, baby girl lift them thighs up
I think you betta wise up 'cause I'm about to rise up Do what it do tonight, do what it do tonight
Do what it do tonight, do what it do tonight
Do what it do tonight, do what it do tonight
Do what it do tonight, do what it do tonight
Do what it do tonight, do what it do tonight
Do what it do tonight, do what it do tonight
