

Watch the Wind Blow By

Tim McGraw

Creek goes rippling by
I've been barefooting all day with my baby
Brown leaves have started falling
Leading the way I like it best just like this
Doing nothing all the way
So let's lay down in the tall grass
Dreaming away And all I wanna do is let it be and be with you, and watch the wind blow by
And all I wanna see is you and me go on forever, like the clear blue sky
Slowly, there's only, you and I
And all I want to do is watch the wind blow by
Girl, you know you told me not so long ago
To let it come, then let it pass
And all your troubles and your sorrows
They won't last So let me kiss you now, little darlin'
Beneath this autumn moon
Cold winds, another season
Will be here soon
And all I wanna do is let it be and be with you, and watch the wind blow by
And all I wanna see is you and me go on forever, like the clear blue sky
Slowly, there's only, you and I
And all I want to do is watch the wind blow by, yeah All I wanna do is watch the wind blow by
All I wanna do is watch the wind blow by
