## Migos & Marshmello

[Verse 1: Offset]

Tryna get demons up outta me (demons)  
Turn to a beast, eat your arteries (beast)  
Deceasing opponents so properly (opponent)  
Unleashing the dark side what got to me (got)  
We come to take this shit over (hey)  
Foot on the gas, hear the motor (skrrt)  
Switchin' my thoughts, I'm bipolar (woo)  
I stare in the eyes of a cobra (sss)  
Say you want smoke, come get it (come on)  
You wanna play dumb, I'm wit' it (wit' it)  
I'm about to take over the city (hey)  
I came with my committee, gang with it (gang)  
Came for the bag and the profit (bag)  
Lookin' for the wave when we got it (wave)  
Nigga, you ain't scare nobody (boo)  
Bop-bop, that's a whole body (bop)

[Pre-Chorus: Quavo]

Cold case, cold-cold case  
On the dark side, if you keep cold, it's a cold case  
Cold-cold case, cold-cold case  
In my right mind, I can ride right 'til I road rage  
Cold-cold case, cold case  
Skeleton on my left wrist, and that's all place  
Cold-cold case, cold-cold case  
On my knees, thanking God that he got me through the pain [Chorus: Quavo]

Danger, danger  
I don't fit in, I'm a stranger  
Believer, believer  
I can take out all the evil  
Empowerment to all my people  
I can prove to you I'm a leader  
Run through the money, no Visa  
Forgive me 'cause my life illegal

[Verse 2: Takeoff]

Searchin' for the bag and the prize (bag)  
On a mission lookin' for them bad guys  
Can't run no play over my head, I'm real wise  
Look at his eyes, wide, think he traumatized  
Take me as a joke, I'ma hang 'em on the rope (rope)  
'Cause where I'm from, we don't play like that on our side (no)  
Better not freeze 'cause we know you're gon' choke (choke)

Talk behind my back but your shots backfired  
 I know you tried but you never could survive  
 I see the fear that's in your eyes (eyes)  
 Run like Forrest, they tryna hide  
 They criticize in disguise (criticize)  
 They know I can only tell the truth (truth)  
 They know all you do is tell lies (lies)  
 I'm about to take over the city, tell me you just with it  
 'Cause I know my squad gon' ride (ride)[Pre-Chorus: Quavo]  
 Cold case, cold-cold case  
 On the dark side, if you keep cold, it's a cold case
