

# Touch (feat. Carly Paige) [Zeds Dead Remix]

3LAU

No talk, seven days  
Dead air, empty space  
Is this where we are now?  
Would call, but I don't  
You could, but you won't  
'Cause it's been too long now I know that it happens  
People they grow apart but  
I never imagined  
It'd happen to us  
'Cause I knew you so well  
Better than myself  
But everything's changed now  
Do you feel it?  
Drifting slowly down  
Do you feel it?  
Do you feel it?  
All this distance  
I've been reaching out  
Do you feel it?  
Do you feel the way we're falling outta touch? Do you feel it?  
Do you feel the way we're falling outta touch?  
Do you feel it?  
Do you feel the way we're falling outta touch? Long days, busy lives  
Just can't find the time  
Keep making excuses  
Would call, but I don't  
You could, but you won't  
We've gotten use to it  
I know that it happens  
People they grow apart but  
I never imagined  
It'd happen to us  
Cause I knew you so well  
Better than myself  
Better than myself Do you feel it?  
Drifting slowly down  
Do you feel it?  
Do you feel it?  
All this distance  
I've been reaching out  
Do you feel it?  
Do you feel the way we're falling outta touch? Do you feel it?

Do you feel the way we're falling outta touch?

Do you feel it?

Do you feel the way we're falling outta touch?
