Mac Miller

Yeah  
Do you feel it?  
Don't answer, that was a rhetorical question  
Rhetorical (rhetorical) Forever life been never nice, we expedite the process  
And every night I get advice, cause life is way too complex  
Heaven's lights are hella bright, ironic how that came to be  
But can't you see? This angel speaks  
She's saying the place is safe for me  
I told "wait for me," the make believer normally disguise  
Transform before your eyes and glorifies euphoric highs  
The morning rises and I'm fast asleep  
Somewhere off in the master suite  
Having dreams of Latin queens and nasty freaks  
My mind, it wonders to places yonder and even farther  
When I'm sleep walking I'm Stephen Jobs or I'm Peter Parker  
A genius author, a Jesus preaching just to feed his daughter  
The weed to spark up, yeah he's a goner, fuck these primadonnas  
I'll always wonder what happened 3000 years ago  
I like to toy with the idea that we really know  
Is what I do important in the grand scheme of things?  
In my head these dreams are dreamt, trust me we are kings  
I'm wearing a blindfold, like where did the time go  
I know you hear me out there, give me a sign though?  
I'mma follow you wherever your mind goes  
Baby I'mma follow you wherever your mind goes  
Take me away girl, somewhere they won't be  
Hold you closely, look at me, don't speak  
Will you follow me wherever my mind goes?  
So will you follow me wherever my mind goes? I'm just trying to make it all make sense  
As you hypothesize on how to monetize and take advantage of  
All the time "we fall behind, get lost in this Aquarium  
America, the standard of vanity when the camera's up  
We become celebrities, distract from the hysteria  
Confessions that I have and curiosity about life and death  
Most of us will never understand it, we just like the quest  
Read about the meaning of dreaming and all its messages  
Sedatives that take me to God, witness his fetishes  
We all in search for substance, that drugs you pain and numbness  
Circumstances advance the second chances for this beloved  
I wish I could tell you that I didn't see this coming  
But I'm ready for it all to end, die before tomorrows trend  
Your life, it all depends on dollars spent and knowledge gained

Darkness on the brain, lost inside, forgotten days  
Life, it works in such mysterious ways  
All these years that I pray, hope you hear what I say  
I'm wearing a blindfold, like where did the time go  
I know you hear me out there, give me a sign though?  
I'mma follow you wherever your mind goes  
Baby I'mma follow you wherever your mind goes  
Take me away girl, somewhere they won't be  
Hold you closely, look at me, don't speak  
Will you follow me wherever my mind goes?  
So will you follow me wherever my mind goes? Wherever my mind goes  
I'mma follow you wherever your mind goes  
Wherever your mind goes  
Will you follow me wherever my mind goes?  
I'mma follow you wherever your mind goes  
I'mma follow you wherever your mind goes  
Will you follow me wherever my mind goes?  
Will you follow me wherever my mind goes?  
I'mma follow you wherever your mind goes  
I'mma follow you wherever your mind goes  
Will you follow me wherever my mind goes?  
Will you follow me wherever my mind goes?
