

# This Christmas Day

Jessie J

I don't need no diamonds or a fancy car  
Or a jet to fly me right up to the star  
I just need your guidance, since we've been apart  
I feel your love beside me, mending my broken heart I see you, I call your name  
Oh, I'm trying on this Christmas day  
I feel you, I hear you say  
I know you're not okay, I know it's not the same  
But you love me, and that will never change  
Oh, and I love you on this Christmas day I know you see me smiling, holding back my tears  
Just nothing compares to this  
Without you to share it with, my dear  
I'm thinking 'bout the good times  
Wishing you were here  
I'm gonna celebrate, drinking your favorite, cheers  
I see you, I call your name  
Hope you're flying on this Christmas day  
And I feel you, I hear you say  
You're gonna be okay, I know it's not the same  
But you love me, and that will never change  
And I love you on this Christmas day I know you're somewhere  
That's beautiful in every way  
I know you're somewhere  
That I will be with you one day  
I know you're right there  
I close my eyes and hear you say you love me  
And that will never change, no no  
And I love you on this Christmas day  
I see you, yeah, I called your name  
No more crying, no, on this Christmas day  
I feel you, I hear you say  
It's gonna be okay, I know it's not the same  
But you love me, and that will never change  
And I love you on this Christmas day  
And I miss you, yes, every single day
