

How Forever Feels

[Kenny Chesney](#)

Big orange ball, sinkin' in the water
Toes in the sand, couldn't get much hotter
Little umbrella shaped margaritas
Coconut oil, tan senioritas
Oh now I know how Jimmy Buffet feels
Hands on the wheel, cruisin' down the interstate
Gas pedal sticks, carries my car away
I was going as fast as a rambler goes
I could feel the speed from my head to my toes
Oh, now I know how Richard Petty feels
Well I've been around the block a time or two
Done almost everything a boy can do
I've done some livin', yeah I've had fun
But there is one thing that I, haven't done
Saved two months, bought a little diamond
Tonight's the night, feels like perfect timin'
Down on one knee on momma's front steps
Man I'm gonna die if she really says yes
I wanna know how forever feels
I've been around the block a time or two
Done almost everything a boy can do
I've done some livin', yeah I've had fun
But there is one thing that I haven't done
I wanna know how forever feels
Hey I wanna know how forever feels
Girl I wanna know how forever feels
