

Michelangelo Sky

Deana Carter

We fell in love underneath a michelangelo sky
we saw the same things in the shapes of the clouds rolling by
a blanket of leaves and the soft summer wind
feeling the heat of the sun on our skin
that's when i learned how to fly
one kiss and you painted a picture of heaven
it's there when i look in your eyes
i swear i can see forever
underneath a michelangelo sky
One kiss and you painted a picture of heaven
it's there when i look in your eyes
i swear i can see forever
underneath a michelangelo sky
Until that day i was living in black and white
the touch of your hand brings all these colors to life
i get the feeling this feeling won't fade
here in your arms i get carried away
back to the very first time
One kiss and you painted a picture of heaven
it's there when i look in your eyes
i swear i can see forever
underneath a michelangelo sky
One kiss and you painted a picture of heaven
it's there when i look in your eyes
i swear i can see forever
underneath a michelangelo sky
One kiss and you painted a picture of heaven
it's there when i look in your eyes
i swear i can see forever
underneath a michelangelo sky
