

Good Jeans

Tebey

She got me all tore up
Like the holes in her knees
It's like I'm stuck in a dream
But it's where I wanna be
And everybody knows it
She's a perfect ten
She's as good as it gets
Yeah, the girl's been blessed
She's got good genes, a good heart
Handed down from her mama
Daddy's little girl gonna get what she wants
Second that you meet her, gonna know she's the one
She's got good jeans, good looks
Wears em out like a model
Man you should see her she's the talk of the town
In her faded out, painted ons
Walking around in those good jeans Wish she could put me in her pocket
Everywhere that she goes
So I could be real close to her and every curve
She looks so good it hurts
She's got good genes, a good heart
Handed down from her mama
Daddy's little girl gonna get what she wants
Second that you meet her, gonna know she's the one
She's got good jeans, good looks
Wears em out like a model
Man you should see her she's the talk of the town
In her faded out, painted ons
Walking around in those good jeans
