

# Like You Do (feat. Method Man)

Kelly Price

Kelly Price f/ Method Man - Like You Do Hey love, hey love

Hey love, whoo, hmm-hmm-hmm

Yo hey love you're the girl that I adore

Every time I go on tour

I want you more and more

Ma I am yours, mi amor

My ghetto Zsa Zsa Gabor

Don't be snitching to the law

Or ever give up my draws

You're Fly Robin Fly

That apple of my eye

Crooked eye this is what it sounds like when thugs cry

Baby you're like the silent kind

That can tell a good joke, my funny valentine

Roll an L and still smoke it at the same time

Blow your spine I ain't got to ask whose - is this

You know it's mine FOREVER

Stop the regrets and baby let's get it together

Taking these vows for worst or better

And if so I got you

Holding you down like your pops do

You were the pants I'll wear the crown

Ain't nobody gon' love you this way

And ain't nobody gon' f- like Jolly J

I had enough of love

Was tired of the lying and the game

I told myself that men were all the same

Then suddenly my world began to change

Cause that's when I found you Ain't nobody

Loving me like you do baby

Can't nobody

Make me feel the way I'm feeling

Ain't nobody

Loving me like you do baby

No one for me like you baby Now I can smile again baby

Cause lonely days are gone since you are here

Erase the pain and changed the way I feel

Now I believe that love can be for real

I pray that you never leave

Ain't nobody

Loving me like you do baby

Can't nobody

Make me feel the way I'm feeling  
Ain't nobody  
Loving me like you do baby  
No one for me like you baby Don't mean to brag  
But it's the things you do  
Don't mean to talk  
But it's the way you love me  
Feels like its heaven when I'm here with you  
The way you love me makes me happy Yo now ain't no woman like the one I got  
She floss hot to trot keep my manhood rock  
Real deal when she give me something I can feel  
And still jumpin' out the bed to cook a meal  
For her boo, we share like Sonny and Cher  
I got you babe and I'll be there  
You ain't got to have a care in the world  
The scenario when boy meets girl  
I'll give you dough to fix your curl  
The birds and the bees, the flowers and the trees  
Me and you bucking naked all out the sheets  
All I wanna do is make ya happy  
Just ask me  
I'll give you the world if I can fit it through the door  
I'm like the love boat ALL ABOARD  
Docking in your seashore I give it to you raw like  
Voule'vo, cuse, aver ma  
Excusame, que't que't menage'tois Ain't nobody  
Loving me like you do baby  
Can't nobody  
Make me feel the way I'm feeling  
Ain't nobody  
Loving me like you do baby  
No one for me like you baby
