

# That's What I'm Here For

Jason Castro

Goodbye Los Angeles  
You said it was self regret  
I would do my best to find a way  
To help you to forget  
I'm glad you made your way back here to find a better day  
Seems like you're getting a little closer to okay And if you need someone just to be around  
Help put the pieces back that you've finally found That's what I'm here for  
That's what I'm here for  
When you need a little less, or you want a little more  
That's what I'm here for  
That's what I'm here for  
I heard you saying that you're finally feeling free  
Blowing kisses to the distance memories  
Lately I've caught you smiling a little more  
You're beautiful and I'm all yours  
And if you need someone just to be around  
Help put the pieces back that you've finally found That's what I'm here for  
That's what I'm here for  
When you need a little less, or you want a little more  
That's what I'm here for  
That's why I can hold you just as long as you stay  
I can tell you what no one would ever say  
That is alright to admit that you were wrong  
Before you know it, all the scars will be gone  
That's what I'm here for  
That's what I'm here for  
When you need a little less, or you want a little more  
That's what I'm here for  
When you need someone to find you  
When youâ
