

# Say So

## Uh Huh Her

You say that you're broken  
I just want to fix you  
Tell me what to do, baby I will listen  
Days that go unwritten  
All the things you're missing  
Tell me what to do, and maybe I can fix it Say so, you want to (Holler if you want to, come on just)  
Say so, you want to (Say what you want to, you're always disappearing)  
Holler, you want to (Holler if you want to, come on just)  
Happy as one (You're always disappearing) Still I believe you  
I just wanna save you  
Tell me what to do, baby I will listen  
Run run if you want to  
And you'll find what you're after  
Tell me what to do, I'll find all the answers  
Say so, you want to (Holler if you want to, come on just)  
Say so, you want to (Say what you want to, you're always disappearing)  
Holler, you want to (Holler if you want to, come on just)  
Happy as one (You're always disappearing) Don't know how long I've wasted my time  
I only want to lie with you here  
I never thought that you'd be so blind  
Stay if you want and we'll disappear  
We'll disappear Say so, you want to (Holler if you want to, come on just)  
Say so, you want to (Say what you want to, you're always disappearing)  
Holler, you want to (Holler if you want to, come on just)  
Happy as one (You're always disappearing)  
Say so, you want to (Holler if you want to, come on just)  
Say so, you want to (Say what you want to, you're always disappearing)  
Holler, you want to (Holler if you want to, come on just)  
Happy as one (You're always disappearing)
