

I Got the Boy

Jana Kramer

I saw your picture in a paper, Honeymoon in Jamaica,
she's a lucky girl
You look so grown up in your black tux,
from a ball cap in a pick up, seems like another world
You and me and our big dreams, falling in love
We were two kids in the backseat, all fearless and young I got the first kiss and she'll get the last
She's got the future, I got the past
I got the class ring, she got the diamond and wedding band
I got the boy, she got the man
Yeah there's an old you that I knew,
Fake IDs to get into those spring break bars
Back woods on a four wheel, hanging on tight,
I can still feel my racing heart
And now you're cleaned up with a hair cut, nice tie and shoes
If things were different and I had a choice, which would I choose? I got the first kiss and she'll
get the last
She's got the future and I got the past
I got the class ring, she got the diamond and wedding band
I got the boy and she got the man
I got the first kiss and she'll get the last
We each got something, the other will never have
I got the long hair, hot head
She got the cool and steady hand
I got the boy and she got the man
I got the boy and she got the man
