

# End Up Here

## 5 Seconds of Summer

You walked in  
Everyone was asking for your name  
You just smiled  
and told them trouble  
My head spins  
I'm pressed against the wall  
Just watching your every move  
You're way too cool  
And you're coming this way  
Coming this way  
How did we end up talking in the first place?  
You said you like my Cobain shirt  
Now we're walking back to your place  
You're telling me how you love that song  
About living on a prayer  
I'm pretty sure that we're halfway there  
And when I wake up next to you I wonder how  
How did we end up here? Next day out  
Everybody thought you were so insane  
Cause you were so far out of my league  
My friends say I should lock you down  
Before you figure me out and you run away  
But you don't and you won't as you kiss me  
And you tell me that you're here to stay  
How did we end up talking in the first place?  
You said you like my Cobain shirt  
Now were walking back to your place  
You're telling me how you love that song  
About living on a prayer  
I'm pretty sure that we're halfway there  
And when I wake up next to you I wonder how  
How did we end up here? Call me lucky 'cause in the end  
I'm a 6 and she's a 10  
She's so fit  
I'm insecure  
But she keeps coming back for more How did we end up talking in the first place?  
You said you like my Cobain shirt  
Now were walking back to your place  
You're telling me how you love that song  
About living on a prayer  
I'm pretty sure that we're halfway there  
And when I wake up next to you I wonder how

How did we end up here?
