

Washington Moon

[Globelamp](#)

acid rain on sunny days
map the stars inside my brain
a palm tree is a satellite
what thoughts keep you up at night,
my dear? come near to me I want a California sun and a
Washington moon in the same room
at the same time
I can't be in two different places
although I've tried there was a rainbow in your room
I got up to dance with you
if we kick off our muddy shoes
forget about our heavy blues
I saw colors under the covers
I want a California sun and a
Washington moon in the same room
at the same time
I can't be in two different places
although I've tried I want a California sun and a
Washington moon in the same room
at the same time
I can't be in two different places
although I've tried It rains
for days and days
I can't complain
when I wanted it this way
when I made it this way
I want a California sun and a
Washington moon in the same room
at the same time
I can't be in two different places
although I've tried
