

All Around You

Sturgill Simpson

There will be days
When the sun won't shine
When it seems like the whole world is against you
Don't be afraid
Life is unkind
You can let go of the pain if you choose to Cause time slips away
Skies fall apart
It ain't too hard
A universal heart
Glowing, flowing, all around you
There will be nights that go on forever
Like you're long-lost at sea
Never to be found
Just know in your heart
That we're always together
And long after I'm gone
I'll still be around
Cause our bond is eternal And so is love
God is inside you
All around you
And up above
Cause time slips away
Skies fall apart
It ain't too hard
A universal heart
Glowing, flowing, all around you
