

In the Middle

dodie

What are you doing Friday?
Wanna help my worlds collide?
Let's make a bow with old cut ties
Do you want his number?
Or shall I be the one to call?
I haven't seen him much at all Could be weird but I think I'm into it
You know I'm one for the overly passionate
I like you, and I loved him
We could have been the best type of friends You said you're into closure
Shake hands like you're supposed to
I'll be in the middle while you two get along
You've got so much in common
Talk about your taste in women
I'll be in the middle while you two get along
Hey! Does he smile like I do?
Oh, it was shared despite our flaws
I held his hand like I hold yours
Thanks for understanding
Oh, this could be a lot of fun
Should break the awkward, come undone Could be weird but I think I'm into it
You know I'm one for the overly passionate
I like you, and I loved him
We could have been the best kind of friends You said you're into closure
Shake hands like you're supposed to
I'll be in the middle while you two get along
You've got so much in common
Talk about your taste in women
I'll be in the middle while you two get along
Oohh
Hey! Could be weird but I think I'm into it
You know I'm one for the overly passionate
Could be weird but I think I'm into it
You know I'm one for the overly passionate
I like you, and I loved him
We could have been the best type of friends You said you're into closure
Shake hands like you're supposed to
I'll be in the middle while you two get along
You've got so much in common
Talk about your taste in women
I'll be in the middle while you two get along
I'll be in the middle

Hey!
