

Tennessee Boy

Kip Moore

[Verse 1]

Tennessee boy gonna sip a lil' shine
Sip a lil' shine Tennessee boy
Twist off the lid like grandad did
Let the fiddle make a little mountain noise
All across them Rocky Tops
Copper steels on shotgun watch
Apple pie and lemon drop
Droppin' down like rain

[Verse 2]

Colorado girl gonna get a little high
Get a little high Colorado girl
Get a lil' love in God's green earth
Spread a lil' joy all around the world
All across them old Red Rocks
Smoke slowly rollin' up
Lovin' all the friends you got
And you just got one more [Chorus]
And ooh-ooh who needs money
Got a few good friends
And a real good honey
Ooh-ooh that's about all you need
And ooh-ooh soak it up
There's a whole lot of magic in a Dixie cup
And ooh-ooh and if you ask me
That's about all you need

[Bridge]

Tennessee boy gonna sip a lil' shine
Colorado girl get a lil' high
We'll put 'em together and they just might
Make a little love tonight
Make a little love
Make a little love
Make a little love tonight
Make a little love
Make a little love
Make a little love tonight
Make a little love
Make a little love
Make a little love tonight
Make a little love
Make a little love

Make a little love tonight[Chorus]
And ooh-ooh who needs money
Got a few good friends
And a real good honey
Ooh-ooh that's about all you need
And ooh-ooh soak it up
There's a whole lot of magic in a Dixie cup
And ooh-ooh and if you ask me
Well that's about all you need
