

# It's Amazing

Mindy Smith

Baby doll  
My baby doll  
You're just fine  
The way you are  
So what's the matter?  
Where's the problem?  
They don't love you  
'Cause they don't know you like I do  
Can you see?  
It's amazing what you do to me  
Took my heart and made me feel things  
I never felt, before  
It's changing me  
Which direction, so suddenly  
Shook me up and it threw me around  
Helped me learn to breathe it all in  
Tiger Lily  
My Tiger Lily  
You're just wild  
You're as wild as they come  
So what's the trouble?  
Where's the problem?  
You're just a growing  
Beautiful someone  
Can you see?  
It's amazing what you do to me  
Took my heart and made me feel things  
I never felt, before  
It's changing me  
Which direction, so suddenly  
Shook me up and it threw me around  
Helped me learn to breathe it all in  
When I was afraid to reach out  
Oh, when I was the one to run  
You came along with a new lease on love  
To show me how it's done  
Can you see?  
It's amazing what you do to me  
Took my heart and made me feel things  
I never felt, before  
It's changing me  
Which direction, so suddenly  
Shook me up and it threw me around  
Helped me learn to breathe it all in

Helped me learn to breathe it all in
