

# Tomorrow

Kali Uchis

Today is the day I'll learn that I believe in miracles  
I can feel the world opening up, I think I broke the curse  
No, I won't grab you by the arm when you call  
No one can give me what I want  
Yeah, I know Let's get out of this hopeless town  
Nobody can stop us now  
And time's on our side  
While our hearts stay young  
Let's think about it tomorrow Daddy said he needed money  
So he put her on the street (street)  
She had just turned 13  
Got a family to feed (feed)  
Yeah, we grew up in a hurry (that's when she met me)  
Daddy got a little worried (American dream)  
C'mon, let's go  
We'll think about it tomorrow  
C'mon, let's go  
We'll think about it tomorrow Let's get out of this hopeless town  
Nobody can stop us now  
And time's on our side  
While our hearts stay young  
Let's think about it tomorrow  
Let's get out of this hopeless town  
Nobody can stop us now  
And time's on our side  
While our hearts stay young  
Let's think about it tomorrow  
Las horas se me hacen siglos aquí  
Dame un beso que me dure una eternidad (c'mon let's go)  
Porque nunca voy a regresar, nunca (c'mon let's go)  
Te invito si quieres, y como un cometa en el cielo (c'mon let's go)  
Nos quemaremos juntos  
Nos quemaremos juntos
