

# The Reason Why

## Little Big Town

I could love you  
Baby, if you want me to  
I could go and fall for you  
And never even try, hey, hey I could let you in  
Baby, where nobody's been  
Yeah, I'm ready and willing  
To give this love a try, hey, hey You're the reason why  
(Baby, you're the only reason why)  
Don't wanna say goodnight  
(Keep kissing me, don't wanna say goodnight) Yeah, it feels so right  
(Everything is gonna be alright)  
You're the reason why, hey, hey  
You're the reason why, hey, hey  
You're in my head  
Like a song I can't forget  
Wanna hear it over again  
And again, hey, hey You're the reason why  
(Baby, you're the only reason why)  
Don't wanna say goodnight  
(Keep kissing me, don't wanna say goodnight) Yeah, it feels so right  
(Everything is gonna be alright)  
You're the reason why, hey, hey I could love you  
Baby, if you want me to  
I could go and fall for you  
And never even try And never even try  
No and never even try  
No and never even try  
You're the reason why  
(Baby, you're the only reason why)  
Don't wanna say goodnight  
(Keep kissing me, don't wanna say goodnight) Yeah, it feels so right  
(Everything is gonna be alright)  
You're the reason why, hey, hey You're the reason why  
(Baby, you're the only reason why)  
Don't wanna say goodnight  
(Keep kissing me, don't wanna say goodnight) Yeah, it feels so right  
(Everything is gonna be alright)  
You're the reason why, hey, hey  
You're the reason why, hey, hey  
You're the reason why, hey, hey  
You're the reason why, hey, hey Come on and take my hand  
I'm ready and willing

Over and over again
