Left Alone (feat. Chet Faker) [Ta-Ku Remix]

Flume

This is the sound beating of my loves
This is the sound beating of my loves
This is the sound beating of my loves
This is the sound beating of my loves
This is the sound beating of my loves
This is the sound beating of my lovesGood down, I'm for long
Got my word to be someone
Good down, that's alright
All I want is to be left alone,
Left alone, left alone, left alone
Left alone, left alone, left alone
Left alone, left alone, left alone
Left alone, left alone, left alone
Cannot swallow blue found vow
More than that my sleep is wild
All I need is suffering bones
Breathe in sorrow
Golden watch and faking out
Will I freak? Will I come down?
And I take it all at a loss
Breathe out sorrow
Golden watch and faking outWill I freak? Will I come down?
And I take it at a loss
Breathe out sorrow
Gonna find a fix in walls
Holding by the knees and vow
I can always feel this proud
Breathe out sorrow
Oh I tell you something more
What my brain is bleeding for
And it hurts my darling, but breathe out sorrow
Gonna find in peace and loss
Holding by the knees and vow
I can always feel this proud
Breathe out sorrow
Oh, I tell you something more
What my brain is bleeding for
And it hurts my darling, but breathe out sorrow
