Move Together

James Bay

home now, end of the night
and it's colder to turn on your side
and I know you are up in two hours
but we didn't get tonight, we don't have tomorrow
so don't ruin nowhow are we gonna move together? come closer
if we don't move together, just come closer
how are we gonna breathe? and how are we gonna be together?
just keeping the peace, between the sheets
and I creep in, everything's loud
and I'm sorry, I've woken you now
and we'll argue, the tiniest thing
but we didn't get tonight, we don't have tomorrow
so I'm done whispering, done whisperinghow are we gonna move together? come closer
if we don't move together, just come closer
how are we gonna breathe? and how are we gonna be together?
just keeping the peace, between the sheetsso, baby, don't give me cold, cold shoulder
before you go, turn around, let me hold you
let me say it, in the dark of the morning
just one more thing
how are we gonna move together? come closer
if we don't move together, come closer
how are we gonna breathe? and how are we gonna be together?
just keeping the peace
just keeping the peace
just keeping the peace
between these sheets
